Dear Ms. Abreu:

This is in reference to the letter dated January 26, 2011 requesting to renew Nuclear Regulatory Commission License No. 52-25545-01.

As stated in the cover letter to your original license, you must submit a complete renewal application before the expiration date of your license. Please submit a complete application using "Consolidated Guidance About Materials Licenses," NUREG-1556, Volume 9, Rev. 2, "Program-Specific Guidance About Medical Use Licenses." Appendix C of this NUREG may be useful to you in preparing this application. This document is available on the NRC's website at <http://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1556/v9/r2/>.

Please note that NRC Form 313 requires the applicant, by his/her signature, to certify that all information contained in the application is true and correct to the best of the applicant's knowledge. The application and all future amendment requests should be signed by a representative of executive management for Hospital Metropolitano Dr. Tito Mattei.

Current NRC regulations and guidance are included on the NRC's website at www.nrc.gov; select **Nuclear Materials; Medical, Academic, and Industrial Uses of Nuclear Material**; then **Regulations, Guidance, and Communications**. You may also obtain these documents by contacting the Government Printing Office (GPO) toll-free at 1-866-512-1800. The GPO is open from 7:00 a.m. to 6:30 p.m. EST, Monday through Friday (except Federal holidays).

We will continue our review upon receipt of this information. Please reply to my attention at the Region I Office and refer to Mail Control No. 574304. If you have any technical questions regarding this deficiency letter, please call Lester Tripp at (610) 337-5358.
