Subject: UniStar Nuclear Energy, NRC Docket No. 52-016
Revised Schedule for Submittal of Guidance and Strategies for Loss of Large Areas per 10 CFR 50.54(hh)(2) and 10 CFR 52.80(d)
Calvert Cliffs Nuclear Power Plant, Unit 3

Reference: UniStar Nuclear Energy Letter UN#11-015, from Greg Gibson to Document Control Desk, U.S. NRC, Revised Schedule for Submittal of Guidance and Strategies for Loss of Large Areas per 10 CFR 50.54(hh)(2) and 10 CFR52.80(d), Calvert Cliffs Nuclear Power Plant, Unit 3, dated January 28. 2011.

The purpose of this letter is to provide updated schedule information for the submittal of the Calvert Cliffs Nuclear Power Plant (CCNPP) Unit 3 Guidance and Strategies for Loss of Large Areas (LOLA). The LOLA guidance and strategies are required for compliance with 10 CFR 50.54(hh)(2) and 10 CFR 52.80(d). UniStar Nuclear Energy (UNE) will submit the Guidance and Strategies using the Nuclear Energy Institute (NEI) template document NEI 06-12 template and NRC Interim Staff Guidance (ISG) ISG-016.

The referenced letter provided an August 31, 2011 submittal date based on utilizing a template different from NEI 06-12. The UniStar LOLA information, utilizing the NEI 06-12 template, will now be submitted to the NRC by March 31, 2011.

Because some aspects of the NEI 06-12 template have raised concerns, UniStar will be requesting a public meeting to discuss the concerns prior to the March 31 submittal.
