**SUBJECT: WESTINGHOUSE LICENSE SNM-1107 AMENDMENT REQUEST FOR CHANGE
IN PRINCIPAL OFFICERS (DOCKET 70-1151)**

Westinghouse Electric Company LLC (Westinghouse) hereby requests an amendment to our Columbia Fuel Fabrication Facility (CFFF) SNM-1107 license application. The purpose of this amendment request to the CFFF license application is to authorize an organizational change pertaining to the Westinghouse management structure. The individuals previously acting as Vice President U.S. Fuel Operations and acting CFFF Plant Manager will permanently assume those positions. The primary responsibility for the management of the license and implementation of any of the license and regulatory obligations, including decommissioning and financial assurance, will now reside with the CFFF Plant Manager, Mr. David J. Precht. NRC was previously informed of this management structure for these individuals in an acting role in Westinghouse's October 4, 2010 letter (LTR-RAC-10-68).

This change is administrative in nature. The proposed change does not adversely affect public health and safety or the environment, presents no construction impact, and Westinghouse requests that this amendment may be processed in accordance with the categorical exclusion provision of 10 CFR 51.22(c)(11).

If you have any questions or comments regarding the details of this amendment request, please contact me at (803) 647-2045.

Sincerely,

A handwritten signature in cursive script, appearing to read 'Gerard F. Couture'.
