Reference: STV Incorporated - License No. 06-30049-01 (Control No. 142749)

Subject: Proposed Amendment to License

574514
m

Dear Dr. Lodhi:

STV's materials license allows for storage of our portable gauge in our Stratford, Connecticut office located at 80 Ferry Boulevard. It also allows for use of the gauge/material at temporary job sites. I am writing to amend Condition No. 10 of our license to allow storage of the gauge/material at additional locations within Connecticut.

STV provides construction inspection services to various clients at project locations. These locations are generally staffed from field offices that are adjacent to the construction sites. Please amend our license to allow storage of our gauge/material at the following field office sites:

STV Incorporated

West Haven Project Field Office
101 Hood Terrace, West Haven, CT 06516
203-932-0428 fax: 203-932-0432
STV Project No. 40-14874

STV Incorporated

Fairfield Station Project Field Office
26 Frank Street, Fairfield, CT 06825
203-368-9472 fax: 203-368-9623
STV Project No. 40-13938

STV Incorporated

Third Fairfield Station/Metro Center
55 Black Rock Turnpike, Fairfield, CT 06824
203-330-5779 fax: 203-330-5776
STV Project No. 40-14768

STV Incorporated

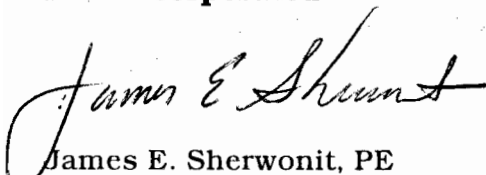

Merritt Parkway Project Field Office
560 Jefferson Street, Fairfield, CT 06825
203-371-1151 fax: 203-371-1160
STV Project No. 40-14338

Facilities and signage will be provided at each field office to safely and securely store the gauge in accordance with the conditions of our license.

Please contact me directly if you have any questions or require additional information concerning this request.

Very truly yours,

STV Incorporated

James E. Sherwonit, PE
Vice President/Radiation Safety Officer
