Dear Ms. Bronson:

It has come to our attention that an omission existed in Amendment No. 76 to your NRC Material License No. 21-00021-29. Please note that at this time, due to a change in NRC's licensing policies, we must obtain possession limits for all materials listed on your license except materials in 10 CFR 35.100 and 35.200. As we discussed by telephone on February 8, 2011, this omission has been corrected by the addition of the possession limit in Item 8.C. in the enclosed Corrected Copy of License Amendment No. 76. Please note that the changes made to your license are printed in **bold** font.

NRC's Regulatory Issue Summary (RIS) 2005-31 provides criteria to identify security-related sensitive information and guidance for handling and marking of such documents. This ensures that potentially sensitive information is not made publicly available through ADAMS, the NRC's electronic document system. Pursuant to NRC's RIS 2005-31 and in accordance with 10 CFR 2.390, the enclosed license document is exempt from public disclosure because its disclosure to unauthorized individuals could present a security vulnerability. The RIS may be located on the NRC Web site at: <http://www.nrc.gov/reading-rm/doc-collections/gen-comm/reg-issues/2005/ri200531.pdf> and the link for frequently asked questions regarding protection of security related sensitive information may be located at: <http://www.nrc.gov/reading-rm/sensitive-info/faq.html>. A copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). The NRC's document system is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).

If you have any questions, please do not hesitate to contact me at (630) 829-9839.
