Subject: Clarification to NEI 08-09, Revision 6 Regarding Records Retention

Project Number: 689

Dear Mr. Correia:

By letter dated April 28, 2010 (ML101180434), NEI submitted NEI 08-09, "Cyber Security Plan for Nuclear Power Reactors," Revision 6 (ML101180437) for NRC endorsement. The document was approved as a method to comply with the requirements of 10 CFR 73.54 by NRC letter dated May 5, 2010 (ML101190371). A definition in NEI 08-09 was clarified by letters dated June 2 (ML101550061), and June 7 (ML101550052), 2010.

The intent of this letter is to clarify Section 4.13, "Document Control and Records Retention and Handling," as described in Appendix A, "Cyber Security Plan Template" of NEI 08-09, Revision 6. The enclosure provides text that supersedes, in entirety, the existing text in Section 4.13. It is intended that the enclosed language be used in responding to records retention related site-specific RAIs that may be issued to licensees who have developed cyber security plans using the template in NEI 08-09. The enclosed language will also be incorporated into a future revision to NEI 08-09.

If you have questions or require additional information, please contact me or William Gross at (202) 739-8123; wrg@nei.org.

Sincerely,

Christopher E. Earls
