NUCLEAR ENERGY INSTITUTE

Christopher E. Earls
DIRECTOR
SECURITY
NUCLEAR GENERATION DIVISION

February 28, 2011

Mr. Richard P. Correia
Director, Division of Security Policy
Office of Nuclear Security and Incident Response
U.S. Nuclear Regulatory Commission
Washington, DC 20555-0001

Subject: Template for the Cyber Security Plan Implementation Schedule

Project Number: 689

Dear Mr. Correia:

In accordance with 10 CFR 73.54, each nuclear power plant licensee must submit for NRC approval a proposed cyber security plan implementation schedule. By letter dated December 14, 2009 (ML093080517), the U.S. Nuclear Regulatory Commission (NRC) provided the Nuclear Energy Institute (NEI) expectations for the proposed implementation schedules. By letter dated January 5, 2011 (ML110060093), NEI transmitted to the NRC an implementation schedule template (ML110060097).

We have revised the template based on feedback from the industry. The enclosed template supersedes the earlier version (ML110060097) provided on January 5. As with the earlier version, the template was written generically, and licensees that use the template to develop their proposed implementation schedules will need to make conforming changes to ensure the submitted schedule accurately accounts for site-specific conditions.
