Re: NRC License 03-23853-01VA

Dear Mr. Null:

As requested by NRC in the transmittal letter dated June 12, 2009, for Amendment 7 to our master materials license, we are enclosing a DVD containing a copy of the final report of the Phase II characterization study for the former waste burial site at West Los Angeles.

The final report, which was provided to our office on February 23, 2011, is entitled "Initial VOC & Radiological Subsurface Investigation Report" and comprises three volumes. Due to the size of the report (approximately 742 pages), we are providing it in electronic format only as three PDF files.

Please contact Thomas E. Huston, Ph.D., at 501-257-1578, if you have any questions or comments.

Sincerely,

Gary E. Williams
Director, National Health Physics Program

Enclosure (DVD with three files in PDF format)
