NRC Docket Nos. STN 50-454 and STN 50-455

Subject: Change to Byron Station Operator Licensing Examination 2012 Dates

In conversation with Mr. William Hochstetter, Senior Operations Training Instructor at Byron Station, a request has been made to reschedule the current 2012 Primary and Alternate Byron Station Initial Operator License Examination dates. This request is being made based on nine candidates taking the exam. In conversation with David Reeser, the Lead NRC Examiner for this exam, the operating portion of the exam can be accomplished in one week. This change would also request the NRC Exam Validation be conducted during the week of January 2, 2012.

Current Primary Date	Current Alternate Date	Proposed Primary Date	Proposed Alternate Date
January 16, 2012	January 23, 2012	January 23, 2012	January 16, 2012

Please confirm these revisions by contacting Mr. William Hochstetter at 815-406-3111.

Respectfully,

Timothy J. Tulon
Site Vice President
