SUBJECT: MINE SAFETY APPLIANCES COMPANY, REQUEST FOR ADDITIONAL
INFORMATION CONCERNING APPLICATION FOR AMENDMENT TO
LICENSE, CONTROL NO. 574473

Dear Ms. McGinley:

This is in reference to your letter dated February 16, 2011 requesting to terminate Nuclear Regulatory Commission License No. 37-00261-04. In order to continue our review, we need the following additional information:

As stated in NUREG-1757, Volume 1, Revision 2, "Consolidated Decommissioning Guidance, Decommissioning Process for Materials Licensees," Section 8.2:

- For all sealed sources used in temporary job sites authorized under this license, including those no longer in licensee's possession, provide to the NRC the results from the most recent leak tests demonstrating there has been no leakage, and;
- Submit NRC Form 314, "Certificate of Disposition of Materials," or equivalent information to NRC.

Please note that the NRC Form 314 should be signed by an authorized management representative of the company and not the Radiation Safety Officer.

Current NRC regulations and guidance are included on the NRC's website at www.nrc.gov; select **Nuclear Materials; Medical, Academic, and Industrial Uses of Nuclear Material**; then **Regulations, Guidance, and Communications**. You may also obtain these documents by contacting the Government Printing Office (GPO) toll-free at 1-866-512-1800. The GPO is open from 7:00 a.m. to 6:30 p.m. EST, Monday through Friday (except Federal holidays).

We will continue our review upon receipt of this information. Please reply to my attention at the Region I Office and refer to Mail Control No. 574473. If you have any technical questions regarding this deficiency letter, please call me at (610) 337-5366.

M. McGinley
