Dennis,

GEH has no comments on the ESBWR Final Safety Evaluation Report. Also, we have determined that it contains no GEH proprietary information and may be released to the public. We appreciate the opportunity to have reviewed it.

Sincerely,

**Importance:** High

Tim,

Attached is the NRC letter requesting GEH proprietary and factual accuracy review of the ESBWR Final Safety Evaluation Report (FSER). The FSER was sent to GEH previously for this purpose. Please confirm that GEH has completed its review and the FSER may be released to the public.

Thanks,
