Joan,

Mr. Block is an attorney with the New Mexico Environmental Law Center (see attached .vcf).

(b)(5)

Ex. 5

Ex. 5

What does happen now is the use of the GEIS in NRC's ongoing reviews of 5 applications for new ISL licenses. These applications are shown at <http://www.nrc.gov/info-finder/materials/uranium/2008-ur-projects-list-public.pdf>.

Your thoughts appreciated.

Subject: A process question about the Final GEIS

Hello, Mr. Park:

Can you tell me whether there is some additional agency process following the release of the NUREG-1910?
Will an ROD issue? Is there some Commission action to approve or accept it?

I am trying to better understand the process involved.

Thanks for any information you may be able to provide.

Jon Block
