comments: Please recognize that the Vermont Legislature has not taken the closing of Vermont Yankee lightly. There are compelling reasons to terminate it's operation due to mismanagement, dishonesty and persistent infrastructure failures. Please DO NOT relicense this plant.

It represents a clear danger to Vermont's environmental security, it's "brand," and every area served by the Connecticut River. I am not opposed to nuclear power, but I am opposed to continued operation of this badly flawed plant.

Rebecca, would you look at this email, or pass it to Emile for an opinion?
This looks like it would be someone who qualifies as an intervener if there was a active hearing going on. (Is there for Vermont Yankee?).
Anyhow, looking for something to tell her if anyone has any ideas.
Thanks,
Don
