Hello, Alan. Yes, I am vastly outnumbered by NRC participants. What started out as an informal 'chat' with the SEIS project managers has escalated into a larger audience including Von Till of the Uranium Recover Licensing Branch.

But I do have a decent bridge line that will accommodate everyone; I will pass it on to all participants later and to Patrice Bubar's assistant that called about it today.

Pls use this bridge line number: 866.299.3188 followed by (b)(2) I am also considering a date change to Thursday if you think that would allow those with CWS on Friday to participate.
