Docket No. 40-215

FEB 24 1958

S. F. Products Corporation
105 State Street
Paterson 3, New Jersey

Attention: Mr. W. M. Qualey, Assistant Treasurer

Gentlemen:

This is in reference to your application for renewal of your source material license to manufacture incandescent mantles.

Enclosed is a copy each of AEC regulations 10 CFR 20 and 10 CFR 40, "Standards For Protection Against Radiation" and "Control of Source Material", respectively. Compliance with Part 20 is made a condition of all source material licenses issued by the Commission.

In addition to the information you have provided, we also require the following:

(a) The methods you intend to employ in controlling both airborne and liquid contamination of personnel during the mantle manufacture processes.

(b) A general description of the types of instruments you will have available to perform health and safety surveys.

(c) The volume and concentration of radioactive waste materials and the methods by which you intend to dispose of this waste.

We shall act promptly on your application upon receipt of this information.
