S.F. Appliances Limited  
105 State Street  
Paterson 17, New Jersey

Attention: Mrs. A. Dillmann  
Assistant Treasurer

Gentlemen:

Enclosed is Source Material License STB-258. As of January 1, 1961, a new numbering system for source material licenses is being used and accordingly, you will note that a new license number has been assigned to you.

You will also note that your license does not contain the blanket export provision as in previous licenses. As the enclosed notice points out, a general license has been issued authorizing the export of source material under certain conditions. The nature of your exports would come under the provisions of this general license.

Very truly yours,

Donald A. Nussbaumer, Chief  
Source & Special Nuclear Materials Branch  
Division of Licensing & Regulation

UNITED STATES  
ATOMIC ENERGY COMMISSION

SOURCE MATERIAL LICENSE

Pursuant to the Atomic Energy Act of 1954, and Title 10, Code of Federal Regulations, Chapter 1, Part 40, "Licensing of Source Material," and in reliance on statements and representations heretofore made by the licensee, a license is hereby issued authorizing the licensee to receive, possess and import the source material designated below; to use such material for the purpose(s) and at the place(s) designated below; and to deliver or transfer such material to persons authorized to receive it in accordance with the regulations in said Part. This license shall be deemed to contain the conditions specified in Section 183 of the Atomic Energy Act of 1954 and is subject to all applicable rules, regulations, and orders of the Atomic Energy Commission, now or hereafter in effect, including Title 10, Code of Federal Regulations, Chapter 1, Part 20, "Standards for Protection Against Radiation," and to any conditions specified below.
