New York, New York 10004

Attention: Mr. K. G. Calaway  
Vice President

Gentlemen:

This refers to your application dated October 23, 1968, requesting renewal of AEC Source Material License No. STB-258 which authorizes your source material activities at Morris, Illinois.

Your initial application for this license was filed over ten years ago and since that time several amendments have been made to the license. Therefore, we are hereby requesting that a new application complete in itself and without reference to previous applications be submitted within thirty days from the date of this letter. We believe the submission of such a consolidated renewal application will enable the Commission staff to evaluate it and subsequent amendments to it more expeditiously. Also, since the application becomes a condition of the license, a consolidated application will facilitate an understanding of the terms and conditions of the license.

As provided by Section 40.43(b) of the enclosed 10 CFR 40, your license shall not expire until a final determination of your renewal application has been made since your renewal application was filed thirty (30) days prior to the expiration date of the license.

Please let me know if you have any questions concerning the above.

Sincerely,  
Original signed by  
Don F. Harmon

Don F. Harmon  
Source & Special Nuclear Materials Branch  
Division of Materials Licensing
