Att: Mr. Nathan Bassin,
Material Licensing Branch
Div. Of Fuel Cycle & Material Safety

Dear Mr. Bassin;

This will acknowledge receipt of your letter of October 16, 1979, referring to our request for renewal of License No. STB-258.

We wish to inform you that the additional information you requested has been delayed due to the fact that we are completely eliminating our processing procedures along with purchasing and using Thorium Nitrate, and in the future we will only continue to store and package mantles at our Morris, Ill. facility.

In view of the above we are presently working up new information and a revised application, which we anticipate will be ready and forwarded to you within the next 30 days, and request an extension for this period.

Very truly yours,

S. F. APPLIANCES LIMITED

K. G. Calaway
Vice President
