Dear Sir;

This is to respond to your letter of November 2, 1979 and IE Bulletin No. 79-19 which was only recently received, as it was sent to a wrong address in Joliet, IL. and we can only presume that the original letter and bulletin must have gone astray.

We wish to advise you that Action To Be Taken by licensees: items 1 thru 9 are being complied with in accordance with the IE Bulletin.

In answer to sub items 1 thru 3 of item 9, we wish to advise you that no shipments of low level radioactive waste were made by us during 1978 and first half of 1979, and that we do not generate any liquid low level radioactive waste at any time.

If any further information is required kindly let us know.

Very truly yours,
