Re: Amendment Request for St. Vincent Healthcare License Number 25-07553-01

Dear Mr. Torres:

We wish to amend the above referenced license to remove the following authorized users and authorized medical physicists from our license. Please remove: Michael W. Brennan, M.D., Paul LaVeau, M.D., James K. Vincent, M.D., and Hoyle Setzer, M.D., as authorized users from our license.

We also wish to remove Rodney J. Wimmer, Ph.D. and David W. Switzer, M.S. as authorized medical physicists from our license. We wish to keep the Sr-90 source, in an ophthalmic applicator, on our license. We commit to not performing any procedures using this source until we retain the services of an AMP qualified to perform activity calculations. The source will be in storage until such time as retaining the services of an AMP and providing notification to the NRC.

Additionally, we would like to add Christopher Fitz JD, MS, ABSNM as RSO on the license, he has previously served as RSO on this license in 2009. We would like to revoke amendment request (mail control number 574121) to add Bruce Austin PhD as RSO.

Please contact me at 406-237-4337 should you require further information concerning this amendment request.

Sincerely,

Karen Costello, BS, RT
