NUCLEAR SUPPLIERS GROUP CERTIFICATION STATEMENT

We hereby certify that the items to be exported or replicas thereof ("Replicas" refers to items produced abroad based on physical examination of the item originally exported, matching it in all critical design and performance parameters), will not be used in:

1. Any nuclear explosive activities, including research on or development design, manufacture, construction, testing or maintenance of any nuclear explosive device, or components or subsystems of such a device;
2. Unsafeguarded nuclear activities including research on, or development design, manufacture, construction, operation, or the maintenance of any nuclear reactor, critical facility, facility for the fabrication of nuclear fuel, facility for the conversion of nuclear material from one chemical form to another, or separate storage installation, where there is no obligation to accept International Atomic Energy Agency (IAEA) safeguards at the relevant facility or installation when it contains any source or special fissionable material (regardless of whether or not it contains such material at the time of export), or where any such obligation is not met; or
3. Safeguarded and unsafeguarded nuclear fuel cycle activities, including research on or development, design, manufacture, construction, operation or maintenance of any of the following facilities, or components for such facilities:
 - I. Facilities for the chemical processing of irradiated special nuclear or source material;
 - II. Facilities for the production of heavy water;
 - III. Facilities for the separation of isotopes of source and special nuclear material; or
 - IV. Facilities for the fabrication of nuclear reactor fuel containing Plutonium.

That written authorization will be obtained from the Bureau of Export Administration prior to reexporting the items, unless they are destined to Canada or would be eligible for export from the United States to a new country of destination under NLR (No License Required) based on country chart under NP column I (Export Administration Regulations Supplement No. 1 to part 738).

Attached is a license application for export of Zirconium Trex tubes to Cameco in Canada. If this application is approved Cameco will ship tubes over the next three years to this Chinese project for use in the Third Qinshan Nuclear Power Corporation facility. I am requesting that this license remain in affect for three years to complete production and shipping. Our previous export approved license was XCOM1203.

Please find enclosed end-use statement, BIS-711, NSG Certifications and information on the end user as well as Cameco's current Purchase Order. Please let me know if you have questions or need additional information. A check for in the amount of \$9,900.00 has also been included.

Please let me know if you have questions or need additional information. You can reach me by phone at 541-917-6712, email to sheila.pershall@atimetals.com, or by fax to 541-967-6990.
