Afternoon,

Attached are the Draft RAI's for Millstone 2 relief request RR-04-04 requesting alternative pressure testing criteria for three different Component Groups of Class 1 piping segments for the fourth 10-year inspection interval. They are being sent to you to ensure that the questions are understandable, the regulatory basis for the questions is clear, and to determine if the information was previously docketed. Please inform me by COB on Friday, 3-25-2011, if DNC desires to have a teleconference regarding the attached draft RAIs. If I don't hear from you by COB on 3-25-2011, then I will issue the RAIs with a response due date of April 29, 2011.

Thanks,
John
