August 20, 1981

Mr. Darrell G. Eisenhut, Director
Division of Licensing
Office of Nuclear Reactor Regulation
U.S. Nuclear Regulatory Commission
Washington, DC 20555

Dear Mr. Eisenhut:

In the Matter of the Application of) Docket Nos. 50-438
Tennessee Valley Authority) 50-439

Your letter to H. G. Parris dated August 3, 1981 requested a realistic and up-to-date projected construction completion date for the Bellefonte Nuclear Plant. TVA has just completed its yearly comprehensive review of the construction status of all its nuclear plants. Based upon the results of this review, TVA believes that Bellefonte can be completed as early as March 1983. Enclosed for your information is our proposed licensing review schedule, which TVA believes is necessary to support this date. This schedule assumes a hearing will not be required, and the NRC will require only one additional round of questions. TVA would like to meet with you as soon as possible in order to discuss this review schedule and the proposed measures to improve the efficiency of the review. We will get in touch with the Bellefonte Project Manager to arrange for this meeting.

Very truly yours,

TENNESSEE VALLEY AUTHORITY

L. M. Mills, Manager
Nuclear Regulation and Safety

Sworn to and subscribed before me

this 20th day of August 1981.
