Director of Nuclear Reactor Regulation
Attention: Mr. Olan Parr, Chief
Light Water Reactors Branch No. 3
U.S. Nuclear Regulatory Commission
Washington, DC 20555

Dear Mr. Parr:

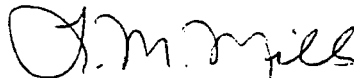

In the Matter of the Application of) Docket Nos. 50-438
Tennessee Valley Authority) 50-439

In response to your August 2, 1979 letter to H. G. Parris, TVA has had discussions with members of your staff and Babcock & Wilcox concerning the need for a secondary water chemistry program description. As a result of these discussions, it appears to TVA that the submittal of a water chemistry program at the present time is premature.

Therefore, TVA proposes for Bellefonte Nuclear Plant (BLNP) by this letter to document a commitment to provide a secondary water chemistry program description about one year in advance of the operating license. TVA believes this will provide adequate time for preparation of the program and still be consistent with the BLNP review schedule.

Very truly yours,

TENNESSEE VALLEY AUTHORITY

L. M. Mills, Manager
Nuclear Regulation and Safety
