

a. Determine how the information on the change in reactor design affects the staff's previous evaluation of environmental impacts associated with constructing and operating a new unit at the NAPS site and identify the significant issues arising from the change in reactor design to be analyzed in depth; including but not limited to, new and significant information regarding whether the design of the facility falls within the site characteristics and design parameters specified in the ESP;

b. Identify and eliminate from detailed study those issues that are peripheral or that are not significant as they pertain to the change in reactor design; and

c. Identify other environmental review and consultation requirements related to the information on the change in reactor design.

The NRC invites the following entities to participate in the scoping process:

a. The applicant, Dominion;
b. Any Federal agency that has jurisdiction by law or special expertise with respect to any environmental impact involved or that is authorized to develop and enforce relevant environmental standards;

c. Affected State and local government agencies, including those authorized to develop and enforce relevant environmental standards;

d. Any affected Indian tribe; and
e. Any person who requests or has requested an opportunity to participate in the scoping process.

The ESP environmental impact statement (EIS) (NUREG-1811), the COL SEIS (NUREG-1917) and Dominion's revised ER are available for public inspection at the NRC Public Document Room (PDR), located at One White Flint North, 11555 Rockville Pike (first floor), Rockville, Maryland or from the Publicly Available Records component of the NRC Agencywide Documents Access and Management System (ADAMS). ADAMS is accessible at <http://www.nrc.gov/reading-rm/adams.html>, which provides access through the NRC's Electronic Reading Room (ERR) link. The ADAMS accession number for the ESP EIS, the COL SEIS and the June 28, 2010, revision to the ER are, respectively: ML063470314, ML100680117, and ML102040545. Persons who do not have access to ADAMS or who encounter problems in accessing the documents located in ADAMS should contact the NRC PDR Reference staff at 1-800-397-4209 or 301-415-4737 or by sending an e-mail to pdr.resource@nrc.gov. These documents may also be viewed on the Internet at <http://www.nrc.gov/reactors/>

[new-reactors/col/north-anna.html](http://www.nrc.gov/reactors/col/north-anna.html). In addition, the following libraries have agreed to maintain these documents for public inspection: Jefferson-Madison Regional Library in Mineral, Virginia; Hanover Branch Library in Hanover, Virginia; Orange County Library in Orange, Virginia; Salem Church Library in Fredericksburg, Virginia; and C. Melvin Snow Memorial Branch Library in Spotsylvania, Virginia.

Members of the public may submit comments on the revisions to the ER by one of the following methods:

Federal rulemaking Web site: Go to <http://www.regulations.gov> and search for documents filed under Docket ID NRC-2008-0149. Comments may be submitted electronically through this Web site until the close of the comment period March 9, 2011. Please include Docket ID NRC-2008-0149 in the subject line of your comments.

Mail comments to: Chief, Rulemaking, Announcements, and Directives Branch, Division of Administrative Services, Office of Administration, Mail Stop: TWB-05-B01M, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001 or by fax to 301-492-3446. Comments should cite the publication date and page number of this **Federal Register** notice. To ensure that comments are considered in the scoping process, written comments must be post-marked or delivered by the end of the scoping comment period, which is March 9, 2011.

Electronic comments via the Internet to the NRC at NorthAnnaCOLEIS@nrc.gov. Electronic submissions must be sent no later than March 9, 2011, to ensure that they will be considered in the scoping process.

Comments submitted will be posted on the NRC Web site and on the Federal rulemaking Web site, [Regulations.gov](http://www.regulations.gov). Because your comments will not be edited to remove any identifying or contact information, the NRC cautions you against including any information in your submission that you do not want to be publicly disclosed. The NRC requests that any party soliciting or aggregating comments received from other persons for submission to the NRC inform those persons that the NRC will not edit their comments and to remove any identifying or contact information in comments they do not want publicly disclosed.

The NRC staff may consider comments submitted after the end of the comment period, as time and resources permit. Participation in the scoping process does not entitle participants to become parties to the proceeding to which the SEIS relates.

At the conclusion of the scoping process, the NRC staff will prepare a concise summary of the determination and conclusions reached on the scope of the environmental review for the revisions to the Dominion application, including the significant issues identified, and will send a copy of the summary to each participant in the scoping process for whom the staff has an address. The summary will also be available for inspection through the NRC ERR link. The staff will then prepare and issue for comment the draft SEIS, which will be the subject of separate **Federal Register** notices and a public meeting. Copies of the draft SEIS will be available for public inspection at the above-mentioned address, and one copy per request will be provided free of charge. After receipt and consideration of the comments on the draft SEIS, the NRC staff will prepare a final SEIS, which will also be available for public inspection.

Information about the proposed SEIS and the scoping process may be obtained from Ms. Tamsen Dozier, Environmental Project Manager at 1-800-368-5642, extension 2272 or via e-mail to Tamsen.Dozier@nrc.gov.

Dated at Rockville, Maryland, this 28th day of January 2011.

For the Nuclear Regulatory Commission.

Scott Flanders,

Director, Division of Site and Environmental Reviews, Office of New Reactors.
