[NAME AND HOME ADDRESS DELETED  
UNDER 10 CFR 2.390]

SUBJECT: COMMUNICATIONS WITH THE U.S. NUCLEAR REGULATORY COMMISSION  
(NRC) REGARDING A FORMER LICENSEE, GOODYEAR AEROSPACE  
CORPORATION, AKRON, OH

Dear [NAME DELETED UNDER 10 CFR 2.390]:

This refers to your January 20 and February 9, 2011, e-mails to Mr. Mike McCann of my staff, and earlier e-mails that were copied to other individuals, agencies, and members of my staff, which make references to a former NRC licensee, the Goodyear Aerospace Corporation, located in Akron, Ohio. Your e-mails discuss concerns regarding discharges from sewers that may be potentially impacting nearby surface water bodies. Based on a review of your e-mails, we did not identify activities specific to an active NRC license. Regardless, we wish to ensure your concerns are appropriately addressed, and to that end, we are directing you to the Ohio Department of Health.

The State of Ohio is an NRC Agreement State, and the NRC transferred the responsibility for regulatory oversight of the civilian use of radioactive materials to the State of Ohio. The State is also responsible for questions and issues relating to past NRC licensed activities, such as those at the former Goodyear Aerospace Corporation. We have contacted Mr. Michael J. Snee, Chief, Bureau of Radiation Protection, Ohio Department of Health, (614) 644-2727, informing him that you may be contacting his office. Please send all future correspondence to the State of Ohio regarding any issues or concerns surrounding former licensed activities at the Goodyear Aerospace Corporation.

If you have any questions regarding this matter or activities specific to a current NRC licensee, please contact me, Christine Lipa, Branch Chief, Materials Control, ISFSI, and Decommissioning Branch, NRC Region III, at (630) 829-9834.

Sincerely,

*/RA/*

Christine A. Lipa, Chief  
Materials Control, ISFSI, and  
Decommissioning Branch
