Mr. James P. O'Reilly, Director
Office of Inspection and Enforcement
U.S. Nuclear Regulatory Commission
Region II - Suite 3100
101 Marietta Street
Atlanta, Georgia 30303

Dear Mr. O'Reilly:

BELLEFONTE NUCLEAR PLANT UNITS 1 AND 2 - EXPANSION ANCHORS NOT PASSING
QUALIFICATION TESTS - NCR 871 AND NCR 898 - SEVENTH INTERIM REPORT

NCR 871 was initially reported on July 10, 1978, to R. W. Wright, NRC-OIE Region II, in accordance with 10 CFR 50.55(e). This was followed by our first interim report dated August 9, 1978. Since that time, related NCR 898 has been determined to be reportable in accordance with 10 CFR 50.55(e) and was reported in our second interim report dated January 26, 1979. This was followed by our combined interim reports dated April 9, June 7, and July 20, 1979, and January 7, 1980. Final resolution to NCR 871 (without cutting rebar) was provided in our July 20, 1979, report. The final resolution to NCR 898 (with cutting rebar) will be resolved and reported in conjunction with the final resolution to OIE Bulletin 79-02 for Bellefonte. We expect to submit our final written report by July 8, 1980.

If you have any questions concerning this matter, please get in touch with D. L. Lambert at FTS 854-2581.

Very truly yours,

TENNESSEE VALLEY AUTHORITY

L. M. Mills, Manager
Nuclear Regulation and Safety
