MEMORANDUM TO: Alexander R. Klein, Chief
Fire Protection Branch
Division of Risk Assessment
Office of Nuclear Reactor Regulation

FROM: Charles E. Moulton, Fire Protection Engineer */RA/*
Fire Protection Branch
Division of Risk Assessment
Office of Nuclear Reactor Regulation

SUBJECT: SUMMARY OF THE FEBRUARY 17, 2011, CATEGORY 2 MEETING
REGARDING THE NATIONAL FIRE PROTECTION ASSOCIATION
STANDARD 805 FREQUENTLY ASKED QUESTION PROCESS

On February 17, 2011, the U.S. Nuclear Regulatory Commission (NRC) staff held a meeting with stakeholders and the public to discuss Frequently Asked Questions (FAQs) at plants that are adopting National Fire Protection Association (NFPA) Standard 805. Licensees and the NRC staff discussed the list of currently open FAQs. The participants determined that both industry stakeholders and the NRC staff needed to continue to work on the remaining open FAQs.

The NRC staff discussed the status of FAQ 08-0053, which deals with Kerite cable categorization. The staff stated that they were waiting for the final test report to be completed, and that they planned to issue it to the public by the end of March.

The NEI Task Force stated that they expected to have a new FAQ that concerns the NFPA 805 Monitoring Program ready for the next monthly (March) FAQ meeting.

Participants agreed that the next FAQ meeting would take place on March 17, 2011 at NRC Headquarters. A future meeting was scheduled, as a teleconference, for April 21, 2011.

The meeting handouts are available in the Agencywide Documents Access and Management System. The updated December NEI NFPA 805 Task Force FAQ Log is available at ML103510574. The NRC NFPA 805 FAQ status and history document is available at ML110480146.
