Dear Mr. Auksel:

It has come to our attention that an omission existed in Amendment No. 11 to your NRC Material License No. 13-07964-08. This omission has been corrected by the addition of a total possession limit in Item 8.A. in the enclosed Corrected Copy of License Amendment No. 11.

Due to a change in NRC's licensing policies, we must obtain possession limits for all materials listed on your license. As we discussed by telephone on February 14, 2011, we have listed the total possession limit and the maximum activity per source for cobalt-60 in Item 8.A. Also note, we have removed the "Official Use Only-Security-Related Information" marking on this license and the license condition that required you to restrict the possession of licensed materials to quantities below the minimum limit for establishing decommissioning financial assurance because based upon the new possession limits, this condition and the marking are no longer applicable.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

Sincerely,

A handwritten signature in cursive script that reads "William P. Reichhold".
