Dear Mr. Parr:

In the Matter of the Application of) Docket Nos. 50-438
Tennessee Valley Authority) 50-439

During the past two years, varied submittals have been provided to the Nuclear Regulatory Commission (NRC) pertaining to Bellefonte Nuclear Plant Security, Contingency, and Training and Qualification Plans. Each of these documents has requested that an individual within NRC return receipts for the proprietary plans to Tennessee Valley Authority.

To date, the NRC has not returned several return receipts as requested. We believe that your staff understands the nature of making certain that sensitive proprietary information is controlled. Enclosed is a list of all the material provided to the NRC with the corresponding date and description of each submittal. Please return the return receipts as described in the enclosure. We would appreciate your cooperation in dealing with this matter. If you have any questions, please get in touch with me.

Very truly yours,

TENNESSEE VALLEY AUTHORITY
