Gentlemen:

In the Matter of) Docket Nos. 50-438
Tennessee Valley Authority) 50-439

BELLEFONTE NUCLEAR PLANT (BLN) UNITS 1 AND 2 - NRC INSPECTION REPORT NOS.
50-438/87-09 AND 50-439/87-09 - REVISED RESPONSE

This letter provides a revised response to our May 4, 1988 response to the subject inspection report. Since that May 4 response, two commitment dates have been revised due to the reassignment of BLN's man-power and TVA's decision to defer BLN units 1 and 2. Specifically, prior to TVA announcing plans to defer both units at BLN on June 30, 1988, key BLN personnel have been reassigned to higher priority work. Additionally, the deferral of BLN affected the available man-power due to employment reductions.

The enclosure provides the revised commitment due dates that were contained in TVA's May 4, 1988 response to the subject inspection report. These revised dates were discussed with Art Johnson on October 17, 1988.

If you have any questions, please telephone E. T. Knuettel at (615) 751-4478.

Very truly yours,
