**FOIA/PA REQUEST**  
**Case No.:** 2011-0143  
**Date Rec'd:** 3-23-11  
**Specialist:** Wood  
**Related Case:** \_\_\_\_\_

Dear To Whom it May Concern:

Ms Holly Janberg of Public Affairs said I should contact this office with my FOIA request.

IMV is a market research company specializing in medical market research. We currently have 3 projects underway which require us to identify all locations in the United States where PET imaging is performed, locations where diagnostic nuclear medicine imaging is performed, locations where permanent prostate implants are performed and locations that provide radiation therapy. Under the provisions of the Freedom of Information Act, we are requesting access to information on medical sites using radioactive materials including sites using positron-emitting isotopes to perform PET studies on humans, sites with cyclotrons and sites that perform diagnostic nuclear imaging. If sites with cyclotrons are supplying PET isotopes to other facilities and you can provide us with the names of those places, please send that information too. We would like the name of the institution, address, telephone number, contact person, authorized users, **authorized places of use** and allowed isotopes for licensees currently in the following site categories as defined by the NRC:

**NRC License Type and License Title**

02110	Medical Institution Board
02120	Medical Institution Limited
02121	Medical Institution Custom
02200	Medical Private Practice-Limited
02201	Medical Private Practice-Custom
02220	Mobile Nuclear Medicine Service
02230	High Dose Rate Remote Afterloader
02231	Mobile High Dose Rate Remote Afterloader
02240	Medical Therapy
02300	Teletherapy
02310	Stereotactic Radiosurgery-Gamma Knife
02500	Nuclear Pharmacies

ANY additional categories related to positron emission tomography and cyclotrons
