Dear Ms. Cook,

SUBJECT: License #30-29237-01

Lovelace Respiratory Research Institute (LRRI) continues to review its radiological program against our research goals. As a result of the latest review, LRRI requests modification of its material license.

Deletion of line items G, H, I, J and T. This would remove the line items specifically dealing with Cs-137, Co-60, Cm-244, Sr-90 and Np-237.

Decrease in the possession limits for line items P and S to revised values as shown in table below. The authorized uses would remain the same.

Line Item	Isotope	Chemical/Physical Form	Revised Possession Limit
P	U-238	Any	100 mCi
S	Ra-226	Any	200 mCi

} Amounts are being decreased.

If you have questions or require additional information pertaining to this submittal, please contact me at (505) 348-9578 or via email to emarshall@lrri.org.

Sincerely,

Elaine T. Marshall, CHP
Radiation Safety Officer
