John,
Please email me a copy of the December 1, 2006 letter to Dr. Lyman.

Thanks,
Tanny Santos

>>> John Szabo 11/14/2007 9:30 AM >>>

Upon review of the information provided and discussions, it is our opinion that there is insufficient reasons to close the upcoming ACNW or ACRS meetings under exemption 9(B) of the Government in Sunshine Act for the proposed staff presentation and discussion on SOARCA. However, there could be a basis for closing the meeting if the discussions would involve safeguards or similar sensitive information.

We would note that the Chairman, in a letter of December 1, 2006, to Dr. Edwin S. Lyman (UCS), stated that the NRC will continue to hold public meetings and conduct public briefings of the ACRS during the conduct of SOARCA.

Please feel free to contact us if you wish to discuss this further.
