Scott,

We only transcribe parts of the meeting that involve presentations by the staff and industry.

We do not transcribe during the ACRS internal discussions such as letter writing. My presentation was about a draft white paper that I prepared for internal ACRS use. This white paper is currently being reviewed by the ACRS. The Committee plans to issue a letter to EDO, transmitting the white paper, during its November 2008 meeting.

Hossein

Importance: High

Hossein;

I just got a call from Inside NRC, asking about the transcript from the last full committee meeting. The reporter is interested in the presentation you gave on previous analyses. He's confused as to why the transcript says the committee went off the record before starting your presentation, yet your slides are attached to the transcript. How can we best answer the reporter? He's writing for a deadline tomorrow, so I'd like to get back to him today if possible. Thanks.
