**Subject:** public records request

Hi Joey, Roger,

Hope all is well.

I'd like to request, under federal Freedom of Information laws, environmental studies filed for FPL and Progress Energy's nuclear reactors in Florida before their licenses were approved by the NRC. (I'd essentially like to see what types/strengths/frequencies of natural disasters the plants are built to withstand, among other things.)

If they are voluminous, I can examine them at the NRC's offices in Maryland.

Thanks,  
Julie
