Subject: ESTABLISHING MAXIMUM POSSESSION LIMITS FOR NRC LICENSE

License No. 53-23291-01
Docket No. 030-30999

Dear Mr. Moody:

Your Nuclear Regulatory Commission (NRC) license currently has "open ended" possession limits for the radionuclides that you possess. The NRC no longer writes its licenses in this manner. Please provide the amount per source and the total amount you wish to possess for each radionuclide listed on your license. You may wish to request a possession limit adequate to allow for the possession of a spare source(s) during replacement of the source in a device(s), to accommodate the future purchase of additional sources, and/or any sources and/or devices you may have in storage and not currently using.

The table below shows the source you are allowed to possess on your current license. Please verify the manufacturer and model number reflects your current inventory. Also, please insert the amount per source and the total amount you wish to possess for the radionuclide listed on the license:

Radionuclide	Manufacturer and Model Number	Amount per source	Maximum Possession Limit
A. Cesium-137	A. Thermo MeasureTech, formerly TN Technologies, Model 57157C	A.	

Please respond to this e-mail by March 18, 2011. If you are unable to respond by this due date, please don't hesitate to contact me and we can discuss an extension to the date. You may respond by e-mail in PDF format. If you have any questions regarding this e-mail, please call me at 817-276-6596. When responding to this e-mail, please include the license and docket numbers located at the top of this page.

Thanking you in advance for your cooperation, assistance and prompt response in this matter.

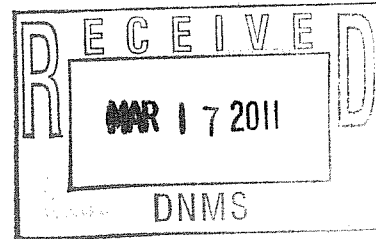

Sincerely,

Lizette Roldán-Otero, Ph.D.

Subject: Maximum Possession Limit for NRC License
 Docket: 030-30999
 License: 53-23291-01

Dear Ms. Roldan-Otero:

In response to your e-mail dated March 11, 2011, Honolulu Resource Recovery Venture is currently in possession of the thirteen Thermo MeasureTech (Kay-Ray) Model 7062BP single point sealed source level gauges of 50 millicuries each. The following table shows the information which should be reflected on our license:

Radionuclide	Manufacturer and Model No.	Amount per source	Maximum Possession Limit
A. Cesium-137	B. Thermo Measure Tech. (Kay-Ray), Model 7062BP	A. 50 millicuries	A. 1 curie

Please contact me should you require additional information. I can be reached at (808) 682-0201. Alternately, Mr. James Moody may be contacted at (808) 682-0290.

Sincerely,

Robert Webster
