LICENSE
SUPPLEMENTARY SHEET**

License Number: 097-1136-01

Amendment No: 02

13. **The licensee is authorized to transport licensed material in accordance with the provisions of Chapter HFS 157, 'Radiation Protection', Subchapter XIII, 'Transportation'.**
14. Each portable nuclear gauge shall have a lock or outer locked container designed to prevent unauthorized or accidental removal of the sealed source from its shielded position. The gauge or its container must be locked when in transport, storage, or when not under the direct surveillance of an authorized user.
15. **Except for maintaining labeling as required by Chapter HFS 157 'Radiation Protection', Subchapter III or Subchapter XIII, the licensee shall obtain authorization from DHFS before making any changes in the sealed source, device, or source-device combination that would alter the description or specifications as indicated in the respective Certificate(s) of Registration issued either by the NRC pursuant to 10 CFR 32.210 or by an Agreement State.**
16. Any cleaning, maintenance, or repair of the gauge(s) that requires detaching the source or source rod from the gauge shall be performed only by the manufacturer or by other persons specifically licensed by DHFS, the NRC or another Agreement State to perform such services.
17. **Sealed sources containing licensed material shall not be opened or removed from their respective source holders by the licensee.**
18. The licensee shall conduct a physical inventory every 6 months, or at other intervals approved by DHFS, to account for all sources and/or devices received and possessed under the license. Records of inventories shall be maintained for 5 years from the date of each inventory and shall include the radionuclides, quantities, manufacturer's name and model numbers, location of sealed sources and/or devices, and the date of the inventory.
19. The licensee shall maintain a utilization log where the portable gauge(s) are stored. The log shall contain the date(s) of use, temporary job site(s), serial number of the gauge, and the name(s) of the authorized user(s).
20. When performing tests at temporary job sites, the authorized user shall not leave the gauge unattended. Upon completion of tests the device shall be locked in the licensee's vehicle or a secure building to prevent unauthorized use, loss, or theft.
21. Notwithstanding the requirements of HFS 157.24, no sealed sources shall be stored for a period of more than 3 years without being tested for leakage or contamination.
22. In addition to the possession limits in Item 8, the licensee shall further restrict the possession of licensed material to quantities below the minimum limit specified in HFS 157.15 for establishing decommissioning financial assurance.
