MEMORANDUM TO: Cindy K. Bladey, Chief
Rules, Announcements and Directives Branch
Division of Administrative Services
Office of Administration

FROM: Keith K. McDaniel /RA/
Rulemaking Branch A
Division of Intergovernmental Liaison
and Rulemaking
Office of Federal and State Materials
and Environmental Management Programs

SUBJECT: REGULATORY HISTORY INDEX – LICENSE AND CERTIFICATE
OF COMPLIANCE TERMS (10 CFR PART 72) – FINAL RULE

Enclosed is the regulatory history index of those documents of central relevance to the subject rulemaking. The Agencywide Documents Access and Management System (ADAMS) Accession Number is provided for each document or package. The rulemaking amends the regulations to enhance the effectiveness and efficiency of the licensing process for spent nuclear fuel storage. Specifically, it clarifies the term limits for dry storage cask Certificates of Compliance (CoCs) and independent spent fuel storage installation (ISFSI) specific licenses. The amendments also provide consistency between the general and specific ISFSI license requirements, and allow general licensees subject to these regulations to implement changes authorized by an amended CoC to a cask loaded under the initial CoC or an earlier amended CoC (a “previously loaded cask”). The title of the final rule is “License and Certificate of Compliance Terms” and was published in the *Federal Register* on February 16, 2011 (76 FR 8872).
