Attention: Mr. Mike Perkins

Dear Mr. Perkins,

This letter is to inform you of our request to terminate License No. 55-18380-01. NRC Form 314 is attached.

Caribbean Quality Control is no longer in operation as of November 2010. All licensed activities with the Nuclear Density Gauges have ceased permanently. The business has been shut down due to the serious illness of the owner and president; Mr. Kenneth Eastman. Although I was not an employee of Caribbean Quality Control, as Mr. Eastman's son, I have been handling all efforts to terminate the license as my father is unable to do so due to his illness.

We are currently working on transferring the four (4) nuclear density gauges to a licensed company in Puerto Rico (Jaca & Sierra Testing Laboratories).

Attached are an NRC Form 314 Certificate of Disposition of Materials and the most current leak test information I was able to locate.

Please review and let me know if I need any further documentation to facilitate the license termination. Please also direct all phone calls or email correspondence to the following:
