Dear Mr. Koski:

It has come to our attention that an omission existed in Amendment No. 10 to your NRC Material License No.21-16394-01. This omission has been corrected by the addition of a total possession limit in Item 8.C., in the enclosed Corrected Copy of License Amendment No. 10.

Please note that, due to a change in NRC licensing policy, we have added a possession limit of 5 millicuries for material authorized under 10 CFR 31.11. If this is insufficient to meet your needs, please contact the U.S. Nuclear Regulatory Commission, Region III office immediately at (630) 829-9887.

In accordance with 10 Code of Federal Regulations 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

Sincerely,
