Hello Kevin,

Here are the individual technical comment sheets for the three Wyoming ISR SEIS documents. A signed hard copy is on its way addressed to Patrice Bubar. In addition, long ago I promised to sent Haimanot some EPA comments during the development of the Dewey-Burdock ISR SEIS.

EPA would like to shape the development of Dewey-Burdock so that direct referencing of the GEIS is minimized and only used where necessary and appropriate. We encourage the D-B project manager to do more site-specific analysis whenever there are unique situations or site conditions in South Dakota that are not well covered in the GEIS.

Therefore, I have sent a copy of the technical comments to Haimanot Yilma.

N/20
