

**Draft Agenda
 Category 2 Public Meeting
 Options for Proceeding with Future Level 3 Probabilistic Risk Assessment Activities
 Monday, April 11, 2011: 1:00 p.m. – 4:00 p.m.
 U.S. Nuclear Regulatory Commission
 Room C-06B01, Church Street Building
 21 Church Street
 Rockville, MD 20850**

PURPOSE:

To obtain external stakeholder views on options for proceeding with future Level 3 probabilistic risk assessment (PRA) activities.

EXPECTED OUTCOMES:

1. External stakeholders understand the basis for the options for proceeding with future Level 3 PRAs that have been developed by the NRC staff in response to Commission tasking in staff requirements memorandum M100218 (ML100780578).

2. The NRC staff understands external stakeholder views on options for proceeding with future Level 3 PRAs. More specifically, the NRC staff understands external stakeholder views on the following subjects:

Perspectives on future uses for Level 3 PRAs

Objectives, scope, technology, and site selection attributes for a proposed site Level 3 PRA
