Patty,

I activated your account so you should be able to access and read (only) the permit application material files on the GEM web site. Your username is pswain and your password is whatever you used for registration.

If you are interested in the Lost Creek ISR Class I permit, here's how you find it:
When you log on to GEM click on "Permit Application Material" (second column, near bottom). In the "Company Name" box, type in Lost Creek ISR (the system should complete the name as you start typing), then select the name from the dropdown list and hit "Search". Once you get the list of permits for Lost Creek, click on the blue "View Permit" link on the line for Permit # 09-586. It doesn't matter which well you choose, all the links go to the same place. Go to the "Files" tab and you will find pdf files for the application.

Look up "Uranium One Americas" for the Moore Ranch ISR application material. The Reno Creek material is under "AUC, LLC". We haven't received the Class I application for the Nichols Ranch – Hank ISR but expect it any day.

Feel free to contact me if you need any help finding stuff on GEM. You can also call the number on the web site, 307-755-4931, for questions about the database or web site.
