Attachments: 100318 GHG and Climate Change.doc

Hi Jennifer,

Just wanted to make sure you saw this document NRO is sending around for comment. Andy gave it to me today and said Barry wanted comments tomorrow. (I'm not sure what's driving the quick turn around time for comments.) Joan

Joan,

FYI.

Andy

Subject: CO2 and GHG Guidance for Flanders Memo

Saprina-

Attached is the proposed supplemental guidance for CO₂ and other GHG emissions and climate change; this will be referenced from the overarching memorandum from Mr. Flanders to the staff.

Unfortunately, I am on travel starting Wednesday next week. If changes are suggested, then they should be coordinated through Brent or his designee.

Sara-

Thought you could escape from me on a Friday afternoon?

I know that you are working on the other pieces of the overarching memo from Scott Flanders. While this appears to be a large document, I hope to think that it will be the easiest to review.

We have linked many of the cited works to the document; they happen to be in my G: drive, so I hope that they are accessible to you as well; if not, then the ML numbers, FR citations, and web locations are also included. The hard copy that we will send to the OGC mailroom will have the Commission's Order and the Mike Johnson Memo to Bill Borchardt attached.
