Re: Amendment NRC License# 29-30465-01

Mr. Wilson,

As discussed previously, due to the extreme weather conditions this winter the building that we occupied in Connecticut (35A North Plains Industrial Rd Wallingford) experienced a roof collapse due to the excessive snow load. It did not occur directly over our facility but in the connected offices two doors away. Fortunately no injuries or loss of equipment were sustained, however we did have to relocate the gauges that were stored there to another secure location. The gauges were taken to QC Resources 3 Simms Lane Newtown, Ct 06470. The transfer was accommodated by Mr Phil Palillo. Presently we are storing seven gauges there and the other three are being utilized in the field and stored at the two managers homes and vehicle, and one technician.

We have contracted with another Real Estate company for a property for lease at 160 So. Turnpike Rd Unit#3 Wallingford, Connecticut. We are scheduled to move in as of April 1, 2011. The purpose for this writing is to inform you of the events and to amend our current license to reflect the address change.

Should you have any additional questions please do not hesitate to call me @ 732-725-6177

Sincerely,

Frank G. Pennisi
Regional Vice President/ RSO
