**Subject:** RE: Decommissioning cost estimate (UNCLASSIFIED)

Classification: UNCLASSIFIED  
Caveats: FOUO

Mr. Torres,

We have been investigating soil-sifting technology that may allow us to reduce the volume of waste generated during decommissioning, that could also potentially balance against increases in labor and disposal costs. Therefore we have decided to leave the projected costs unchanged for this triennial update as we research the options further.

Please let me know if you have any other questions or concerns.

Thanks  
Tony

Subject: Decommissioning cost estimate

Mr. Brockington:

NRC received the attached Statement of Intent letter dated 3/30/11 signed by Col Payne for NRC License SMB-1411 (Yuma Proving Ground) in the amount of \$228M. This is the same amount listed in the April 19, 2007 Statement of Intent letter. 10 CFR 30.35 requires that decommissioning cost estimates be updated every 3 years. Please let me know if this amount is still current. If the amount is not current then please provide an updated decommissioning cost estimate and revised Statement of Intent letter. Thank you for your

cooperation.

Roberto J. Torres
