April 5, 2011

Mr. John Carlin
Vice President
R. E. Ginna Nuclear Power Plant, LLC
1503 Lake Road
Ontario, NY 14519

SUBJECT: INITIAL OPERATOR LICENSING WRITTEN RETAKE EXAMINATION
APPROVAL (R. E. GINNA NUCLEAR POWER PLANT, LLC)

Dear Mr. Carlin:

The purpose of this letter is to confirm the final arrangements for the upcoming operator licensing written retake examination at the R. E. Ginna Nuclear Power Plant.

The NRC has completed its review of the operator license application submitted in connection with this retake examination and separately provided a list of the approved applicant to Mr. R. Adams, Supervisor Operations Initial Training. Note that any examination waivers have been addressed in separate correspondence.

The NRC has approved the subject written examination in accordance with NUREG-1021, "Operator Licensing Examination Standards for Power Reactors," Revision 9, Supplement 1. Your staff will administer the written examinations on, or about, April 13, 2011. This examination has undergone extensive review by my staff and representatives responsible for licensed operator training at your facility. Based on this review, I have concluded that the examination meets the guidelines of NUREG-1021 for content, operational, and discrimination validity. By administering this examination, you also agree that it meets NUREG-1021 guidelines, and is appropriate for measuring the qualifications of licensed operator applicants at your facility. If you determine that this examination is not appropriate for licensing operators at your facility, do not administer the examination and contact me at (610) 337-5046.

Please contact your Chief Examiner, Mr. D. Silk, at (610) 337-5372, if you have any questions or identify any errors or changes in the license level (RO or SRO) or type of examination (partial or complete written examination) specified for each applicant.

Sincerely,

Samuel L. Hansell, Jr., Chief
Operations Branch
Division of Reactor Safety
