Gentlemen:

This refers to your application dated January 28, 1977, for amendment to License No. 29-00139-056 to allow distribution of a digoxin RIA kit containing iodine-125.

License No. 29-00139-056 authorizes the distribution of radioimmunoassay kits containing iodine-125. It is not necessary to apply for amendment of your license each time you wish to distribute an additional kit containing iodine-125. You must assure however, that the kits are properly labeled and that the information required by Section 32.71 of 10 CFR Part 32 is forwarded with each kit. Labels and instructions should be similar to those submitted in your previous applications for amendment to this license.

Sincerely,

Frederick Combs  
Radioisotopes Licensing Branch  
Division of Fuel Cycle and  
Material Safety
