**Subject:** Decommissioning of South Texas Project

1/31/2011  
76 FR 5410  
15

Dear Ms. Gallagher:

I want to see the Decommissioning of the South Texas Project Units 1 & 2, not the Re-licensing.

I guess supporters of that project will say these units are different and safer than the nuclear plants in Japan. But I do not want to wait until it is too late to find out!

We need to move toward heavy development of solar and wind regardless of the cost--they would be so much safer (and most likely cheaper in the long run, considering all the waste and other negatives of solar).

Sincerely,

Pat Bulla
